

FYI: Stained Glass Gallery

Photographic Presentations of New Work and Recent Restoration

“FYI: Stained Glass Gallery” features new work and recently completed restorations. Work presented is selected from among the submissions received to highlight what is happening right now in the world of architectural, stained, and decorative art glass. This section of *The Stained Glass Quarterly* is open to everyone creating stained and architectural art glass for religious, corporate, public or, private buildings.

For more information on “FYI: Stained Glass Gallery” and to view Galleries from past issues, visit www.stainedglass.org.

Solstice Art Source

Chicago, Illinois

Private Residence
Chicago, Illinois
128" x 38"

In a private residence on Chicago's North Shore, this light screen acts as a sound barrier between an office and hallway that connect the original body of the house to a new addition. It rests atop a bookcase and is centered along the radial barrel vault ceiling. Views are from the kitchen and from the office.
